A Word About Copyright Laws...

The copyright Act protects photographers by giving the author of the photograph the exclusive right to reproduce your photographs. This includes the right to control the making of copies. It is illegal to copy or scan for reproductive purposes any photographs without written permission, and violators of the Federal Law will be subject to its full criminal penalties. In addition, when a copy is made, it is always of a poorer quality than the original. When you hand out cheap copies of our products, you damage our reputation, and deprive this company of its livelihood. We have invested in you our time and our talent.
